History

In **1983**, *Kar Porselen* was founded in a tiny ceramic atelier with great dreams to try new things, create innovative products with successful techniques and bring a different perspective to the conventional understanding of household ceramic products.

Chef-figured spoon holders and basket-weave presentation bowls were the finest examples of this new approach and were in every Turkish household in the 1980s.

While the conventional round dining plates were leaving the spotlight for *Turkey's first square-shaped plates manufactured by Kar Porselen*, the tiny atelier kept growing day by day.

This legacy full of innovation and craftsmanship shaped Bonna Premium Porcelain, and the brand "**Bonna**" was born in 2014 to become one of the most successful HoReCa brands of Turkey and provide innovative products and solutions for the hospitality industry.

With the motivation of making a difference by creating accurate solutions for market needs, Bonna released the *lifetime edge-chip warranty* plates in Turkey for the first time. Becoming one of the limited brands worldwide providing this warranty, Bonna now was also ready to exceed the boundaries and become a global brand.

Today they have two facilities in Kocaeli and Bilecik, with a capacity to produce **30 million pieces per year**. Bonna proudly serves sector professionals in 75 countries and 6 continents.

LIFETIME EDGE CHIP WARRANTY

The entire Bonna product range identified with the "edge chip resistance logo" challenge the toughest standards and can be used for years by fulfilling the Horeca industry requirements.

TRANSLUCENCY
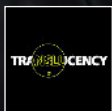

Its special formula and ingredients add a unique glossiness and elegant ivory whiteness to Bonna products.

STACKABLE DESIGN

The stackable design offers the best and the most practical solution even in the tightest storage areas.

GLAZE DAMAGE RESISTANCE

Extensive R&D efforts along with state-of-the-art glazing techniques, offers high-level scratch resistance in all Bonna products.

MICRO WAVE & OVEN SAFE
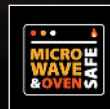

Bonna products can be safely used in microwave and oven even for the high-temperature requirements of restaurants.

DISH WASHER SAFE

The high-resistance glazing process protects all Bonna products in highly corrosive industrial dishwasher environments to meet the fast cycle needs.

THERMAL SHOCK RESISTANCE
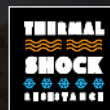

Bonna products are durable against sudden temperature changes and under extreme temperature conditions in the kitchen with hard glaze surface and premium raw materials.
